WHY ADVERTISE IN MOMENTUM

Momentum connects people affected by MS to the resources and information they need to live their best lives and offers access to the most sophisticated, best informed and engaged audience that takes action as a result of what they read. The magazine provides the most proactive and comprehensive information about multiple sclerosis, and offers advertisers a targeted pipeline to reach key decision makers and influencers in the buying market.

ABOUT MULTIPLE SCLEROSIS

Multiple sclerosis is an unpredictable, often disabling disease of the central nervous system that disrupts the flow of information within the brain, and between the brain and body. Symptoms vary from person to person and range from numbness and tingling, to walking difficulties, fatigue, dizziness, pain, depression, blindness and paralysis. The progress, severity and specific symptoms of MS in any one person cannot yet be predicted, but advances in research and treatment are leading to better understanding and moving us closer to a world free of MS.

ABOUT THE NATIONAL MS SOCIETY

The Society mobilizes people and resources so that those who are affected by MS can live their best lives as we stop MS in its tracks, restore what has been lost and end MS forever.

To fulfill this mission, the Society funds cutting-edge research, drives change through advocacy, facilitates professional education, collaborates with MS organizations around the world, and provides services designed to help people with MS and their families move their lives forward. Last year alone, through our comprehensive nationwide network, the Society devoted \$122.2 million to help more than one million individuals connect to the people, information and resources they need. To move closer to a world free of MS, the Society also invested \$54 million to support more than 380 new and ongoing research projects around the world. Learn more at nationalMSsociety.org.

If the Advertiser changes the creative (e.g. adds color pages that were quoted as black and white), the Advertiser is liable for the additional cost associated with the changes based on the Publisher's current rate card. Advertiser must alert the Publisher **at least thirty (30) days prior** to the materials deadline that a change to the creative version is being requested.
